1985: My birth

1987: Dan's birth

1988: The family moved from East Melbourne to Burleigh Heads

Burleigh Heads 1988 - 1997

↪ Important

1988~1997: Wendy and Jamie lived here with us for some period of time

1988/1997: Interesting childhood, violence ended in 1997

Miami 1997 - 2002

1998: I started year 8 at The Southport School

- **Laura Steel**, G&T coordinator, **expresses a concern about my consistently negative thinking** doing de Bono Thinking Hat exercises

✍ Isolation to hide abuse

1998/2002: Deliberately isolated from friends at home (at first, opportunistically, when mum is not around - only Dan and a friend from school would witness)

1999-08-14: [I met Laurien on IRC](#) - talking [depression](#) and suicide and the following week

🕒 Laura Steel noticed something

2000: Laura Steel is disturbed after I was forced by dad to write an apology note for something I did not do (my lack of emotion delivering a deeply emotive apology note is likely what disturbed her)

2000: Family took an unusually long trip around Australia during term, I'm pulled out of school for 2 or 3 months

2001: Self-harm cuts and scars not questioned at home or at school

2002: Laurien described my emotional instability to me: "*One minute you love me, the next you hate me. It happens almost every day.*"

✍ Manipulation to hide abuse

2002-11-03: Suicide attempt, no hope for the future

- "*Are you going to be OK?*" "*no*" - hospitalised for the night, instructed to see a psychologist as part of being released

2002-11-13: Dr. Mark Whittington suggests CBT, mum **interrupted him** to ask *me* if I *want* to come back for therapy,

- I declined because I'm terrified of people but I rationalise: "*I have always been like this*"
- **Dr. Whittington objects, says it's inappropriate to make a mentally ill child responsible for medical decisions**
- Mum: "***It needs to be Grant's choice***"
- Dr. Whittington suggests to arrange a follow-up with someone at school where I would be more comfortable, **never happens**

2002-11: Graduated OP 3, depressed, anxious, didn't attend formal or schoolies, rarely left bedroom

Sydney 2003

2003: UNSW fail, [later posted about online](#), too anxious to attend classes, rarely left dorm room

Miami 2003 - 2006

2003-11: Returned home having failed both semesters - my depression deepened. I was **told to work**

- I applied for the DSD ([my resume](#)) and I was shortlisted - I felt a little bit of optimism

🔗 Support, or joke at my expense?

2003-12: Flown to Canberra for interviews and tests, which seem to go well, until:

- Breakdown during psych eval after I could only answer a question by talking about my depression, anxiety, isolation
- Calles home afterwards traumatised, dad answered the phone, **suggested the problem is the psychologist**
- Not surprised to receive a rejection letter the following week, too depressed to apply for any more jobs

2004-01-13: dad found the "perfect job for me"

- Rather than therapy, I was instructed to work for *Insane Technologies* and to do a handstand for his amusement

2004: Prescribed my first of many antidepressant medications, **mum accompanies me** on the occasions I see doctors

2004-03: I stopped talking to Laurien because I still couldn't admit to her I was rejected from the DSD

☰ alt.support.shyness

2004-06-13: Confused about how I can have a [physical anxiety response](#) when i'm online?

2004-07-26: [Cast Away is an ideal](#) (but maybe only for the "more severely shy" who prefer no human contact)

2005-01-02: Sometimes **I walk ~20km** because [too anxious to get on a bus](#) because [strangers and confined spaces](#)

2005-11: I quit my job at Insane, working had only made me more depressed

- I told my parents I want to try uni again: "*everything went wrong the first time*"
- "*ok, but we aren't wasting money on you, you have to pay*" (unlike Dan)

2006-01-13: Mum & dad gave me a copy of [their wills](#) for some reason - I told myself "*you just got written out*"

🔗 Support, or taking advantage?

2006-04: Mum & dad bought Coorparoo property, and tell me I will qualify for rent assistance if I rent it from them with Youth Allowance

- **I agreed to give them ~90% of my income**, already aware other promises were lies

2006-05: Dr. Whittington prescribed anti-anxiety medication, to take as needed. Not leaving my bedroom often, I rarely need it

Coorparoo 2006 - 2010

2006-06: First semester QUT failure, still too anxious to meet people on my own, no-one at home helped me. I reconnected with Laurien online

🕒 Harassment?

2006-07: While visiting Laurien in Wagga Wagga, I had a **medication-related blackout** after a panic attack entering Unibar

- **Called home the following morning confused and scared, dad answers:**
 - I asked to speak to mum. dad yelled, "**Grant's making up some bullshit**", and I hung up the phone
- **I stopped taking anti-anxiety medication**

2006-08-24: **Laura Steel changes location**, her [last TSS newsletter submission](#)

2006/2009: Isolation, depression, university failures, part-time work to make ends meet, sometimes visited the Gold Coast

- In 2007, I gave up on treatment and stopped going to the clinic
- Over time, my family stopped responding to me when I speak
 - A little bit traumatised when I saw mum trying not to smile when I looked up at her from the table to see why she isn't responding to me any more
 - I became used to talking and being ignored, but over time I stopped trying to talk to my family

🕒 Harassment?

2009-02: Laura Steel changes location: [introduction in Djarragun newsletter](#)

2009-07: I experienced a prolonged anger at Laurien after she made fun of me when I asked her for help

- Described as *regressive discharge*, a consequence of the **25 years I had spent suppressing anger as a result of abuse**

⚡ Deliberate failure to act

2009-07-29: Laurien became afraid of and for me, she contacted Dan on Facebook and asked for help, and **forwarded my threats** ([suicide threats](#) and a threat to "ruin" Laurien)

📄 Laurien's message to Dan in 2009:

*"Whether you believe it or not i care about your brother a great deal. I just can't do this by myself... I feel like **im the only person he really talks to and i just cant handle it on my own...** i cant just ignore his irrational behaviour **not until i know he's being helped**"*

- Dan responded, "ok we'll see what we can do"
- Dan then **blocked Laurien**
- **Dan did not help Laurien or me** - I was not even made aware of her message - and I continued to send Laurien abusive emails and text messages

2009-07-31: Laura Steel changes location: [departure notice in Djarragun newsletter](#)

⚡ They wanted this to happen

2009-08-10: Laurien was now terrified and she contacted New South Wales police, who called my parents and asked to speak to me, at which point I calmed down

- *Still* no-one helped me, talked to me or ever mentioned the event again, and my depression deepened, **without Laurien and now in complete isolation**

2010-02-10: Substance use: [mushrooms](#), cannabis

2010-04: I turned 25 and no longer qualified for youth allowance, so I was told to return to Miami - my parents knew I was too anxious to attend NewStart appointments

Miami 2011 - 2013

📝 Hmm...

2011-mid: For the *first time* - Dan introduced me to a small group of people - *who just happen to be drug users*

- We got along, they seemed nice, but I only saw them twice, and then never again
- In 2022 after I thanked Dan for at least trying to help me, he responded, "*I don't know what happened to them*"

2011-10: Substance use: LSD, amphetamines, I made some friends

🕒 Harassment?

2012-04-16: I turned to my parents for help, suggest I might have ADHD, **and I told them I wanted to go back to the clinic**

2012-04-17: [Laura Steel cancels her ABN](#) (and requests historical details suppressed - unusual - is she hiding?)

✍ Manipulation to hide abuse

2012-05: Evandale Clinic

- Mum & dad were present (to appear supportive? to ensure I don't say anything they don't want to hear?)
- Dr. Whittington was sceptical about ADHD until he learned amphetamine use began 6 months ago
 - He would later warn me about the "*inappropriate involvement*" of my parents (*I should have trusted him more*)
- **A psychologist who assessed me for ADHD mentioned an attempt my parents made to meet with clinicians privately**
- Dr. Trevor Lotz: "*Hello Grant... and Grant's parents, for some reason*"
 - In 2023 Dr. Lotz pointed out that the choice my parents proposed regarding going to the clinic (psychiatrist OR psychologist) is a false dichotomy - I needed both
- ADHD diagnosis made a significant difference but I continued to struggle with undiagnosed PTSD symptoms

2012-07: Reconnected with my family - mostly Wendy, Jamie and mum - before I was pressured to work and get a job in Brisbane

Miami 2015 - 2018

✍ Subhuman

2015-01/2018: Moved back in with mum and dad at Miami

- Too depressed to work, refused ADHD medication
- Still too anxious to attend NewStart appointments on my own
- Mum and dad told me they can't afford to feed me, only Dan
 - Someone helped keep me alive

✍ Support, or sadism?

2016-01-18: Traumatic dentist visit in Mermaid Central

- I didn't want to lose a tooth, so *in front of the staff I begged* dad for a phone call to my old boss Barry, to borrow the money for root canal, and work it off
- dad: "*No. You're in the chair now and I'm paying for extraction*"
- **He remained in the room to watch me hyperventilate** while the tooth was extracted *against my will*
- **The staff commented** on how disturbing my distress was
- Never returned to the dentist, next tooth that hurt, I let rot until it fell out on its own

Biggera Waters 2020 - 2022

🕒 Harassment?

2020-04/2022-10-08: I left Brisbane and moved in with mum & dad

- I was planning to stay a month or two but it turned into an indefinite stay

2020-10: Laura Steel changes location: moved away from Second Avenue in Burleigh Heads

2020: dad proudly told me he bought a \$100,000 car with the money made from Coorparoo - [knew it](#)

✍ He only wanted the x rays

2020: Mum accompanied me to dentist and radiologist for dental X-rays, and I began saving \$40k for dental work

✍ He only wanted the house

2021-05: I reached \$40k in savings, but was then pressured into saving \$100k for a home loan deposit instead

- Mobile home loan vendor visited for a pre-approval application

2022: Mum & dad spent a significant amount of time looking for "*the house I want to die in*"

× dad makes the same mistake he made with Wendy

2022-06-07: Some time after Dan's wedding news, I was depressed enough to open up to dad

- I told him I felt my future is bleak, that I had struggled alone my whole my life and that things had barely improved
 - dad said, "***i think you've had a really tough life***", then hugged me, and said, "***it's because you made bad choices***"
 - I *didn't* know what exactly what or why, but it felt *wrong* and something inside told me: "*think about it*"

I now know:

- [Malignant narcissists blame family scapegoats](#) (like Wendy and I) for things they *secretly know* were caused by them, they *get off* on it
- **dad had told Wendy some 10 years ago that "*Jamie's problems are your fault*"**
 - Meg will almost certainly lie about it now, but I relayed that information to Laurien in 2023 via Facebook Messenger
- **Wendy knew exactly what this meant and she never spoke to him again for the rest of her life**
 - dad's decade-long silence may as well be considered **an admission that he caused Jamie's problems**
 - I have also personally observed this behaviour with Dan (as well as his silence when it's *not secret knowledge any more*)

2022-06-08: Over the following days, I considered all of my bad choices, working my way backwards through my life

⊕ Narcissistic injury causes dad to bring up Laura Steel in relation to abuse and me

2022-06-17: I messaged Dan asking if I was abused by dad. Dan told me no, only punished. I accepted this, at the time

⊕ Note >

- But in that conversation, Dan *also remarkably coincidentally* increased the grade I started at TSS - of all the "typos" he could have made...
I remember enough now* to know that after the last day of school at St. Andrews in Year 7 there was a final opportunity for physical violence that dad took and Dan witnessed (and some other school kids, at least)

Later that day, spoken to dad, messaged to mum: "*i think i might be a victim of abuse*", still unsure who or how though

2022-06-18: Apropos of nothing, dad: "**Laura Steel was a victim of your abuse**"

- When I asked him what he's talking about, he said my failure at UNSW in 2003 led to her "*having to leave TSS*"
- I messaged Dan to ask if he knew what happened to her, **he told me he doesn't remember her**. I requested he ask Stephen Eardley, **Dan never responded**.
- dad returned to say he misspoke, but then had very noticeable difficulty explaining why he even brought up her name after 20 years

🔗 It was planned in advance

2022-07: dad's weird pill display

- At one point while I'm doing a puzzle, dad sat down next to me and "organised" his wallet, but seemed to deliberately put one item much closer to me **as though he wanted to make sure I see it**
- It looked something like a single one of [these](#) but not exposed, and larger with more foil area
- I sensed he was doing something weird and deliberately ignored it
- dad gave me a puzzle for the first and final time

↪ Mum and dad's holiday

2022-08-04: Mum and dad left for a 6 week caravan holiday around Australia

2022-08-18: I reached out to Laurien regarding the blackout in 2006 at Wagga Wagga (misremembered as 2003)

- **I told dad what I had learned and that Laurien had helped me fill in the blanks**

↪ The secret visit?

2022-08-25: Mum unexpectedly returns home

× The failed murder attempt?

The evening she arrived, mum made me dinner and **sent me links to anxiety support groups and singles groups**

Not long after I fell asleep that night, I woke up gasping for breath in a very disturbing manner:

- I had experienced nothing like this before or since
- The first breath upon waking in particular was extremely deep, loud and **very abnormal**
- **It was as though I had stopped breathing in my sleep for a long time** - paroxysmal nocturnal dyspnea maybe?
- I went upstairs to ask mum if she had heard anything, because it was such a loud noise. She said she hadn't
- After I described what happened, mum **asked** me if I wanted to go to hospital
 - *"It needs to be Grant's choice"* - I felt fine anyway (*which seems strange?*)
- I went back downstairs and slept on the couch in the living room, and it *sounded* like mum did the same, upstairs

The second time it happened:

- Too fearful to go back to sleep, concerned about why this is happening, had mum heard, is she asleep?
- **The first time I messaged Laurien with concern for my life: "Like 95% sure my family is trying to murder me.."**
- I didn't sleep again until after 3 AM, **my heart rate felt a little off, and I read the Wikipedia heart rate article**

The following morning I felt fine, decided nothing untoward had happened, not mentioning anything to anyone other than to Laurien on that night

2022-08-26: Mum spent an exceptionally long time shredding documents

- Overtly suspicious, enough to fill a wheelie bin: this became the only interesting thing I recalled about this visit
- We also had a couple of arguments with raised voices about childhood trauma and dad
- We talked about me moving out sooner, but after things calmed down mum said I can stay at Iluka

2022-09-03: Mum returned to her holiday

2022-09-07: [Mum's message from Bowen](#): "please don't [tell Robin] I was there at all"

- *Was Robin supposed to find my body?*

2022-09-15: Mum and dad returned home

- Within an hour both had made the same claim of a false accusation
- I immediately left, disturbed and confused by this blatant gaslighting, [messaged Dan about it later](#)

2022-09-18: Returned home and found the spare keys had been moved

- Mum allowed me to stay after I told her I'd transferred the \$7,000 dad had told me I owed him on the 15th

2022-10-07: Dr. Lotz referred me to a psychologist in a telephone appointment, overheard by dad

- That evening, I had a mental breakdown after being made fun of by mum at dinner - who described my choice to avoid therapy at 17 as "*hilarious*"
- **The second and final time I messaged Laurien with concern for my life: "it might be tonight, pretty sure"**
 - (deliberately omitted that suicide was the concern)
- **I made the first of three \$25,000 transfers to my parents that night and over the following 2 days**
- My parents did not intervene or help me, but were aware of what was happening

2022-10-08: I was taken to Iluka first thing in the morning

Iluka 2022

✍️ Finally talking to a therapist

2022-10-12: First appointment with Daniel

- I didn't mention my childhood, nor did I mention any of the events that occurred after June 7th

2022-11-02: Second appointment with Daniel

- Daniel told me my attachment type and pushed me to make my next appointment in person

2022-12: I read that **disorganised attachment is associated with child abuse**. In infancy. By primary caregivers

2022-12-26: Mum and dad came to Iluka on Boxing day

- I tried to talk about what I'd learned from Daniel, only to have the denials of the past 6 months replaced with *silence*
- I started feeling unsafe sleeping in the same house as them, and I left that night under a pretense - **it's the last time I see them**

Biggera Waters December 2022 - January 2023

✍️ Dan: "now he is out on his own because they cant take his shit anymore"

2023-01-06: I was **made homeless** immediately after I *invited mum to speak to my psychologist*

2023-01-07: I reached out to my aunts Wendy and Meg

2023-01-08: Visit Meg in Natimuk and learn some important family history

2023-01-12: Wendy offers to let me stay with her until I find an apartment

2023-01-17: Return to the Gold Coast, Wendy requests I stay elsewhere for the week as *"the risk is already high"*

- My family refuse to answer my phone calls

Kirra, Coolangatta, Tweed Heads 2023

✍️ Dan: "I did everything I could to help"

2023-01-19: I forwarded Wendy's messages to Dan, pointing out that my staying there that week would put her life at further risk

- *"didn't think it was an issue to stay there"*, did not offer to help anyone, *"that's on you"*

↪ It was planned in advance

2023-01-24: Wendy kidnapped and murdered

2023-02-08: I gave a statement regarding Wendy & Jamie at Broadbeach CIB

2023-03-25: **Twelfth** appointment with Daniel

- It was *sadistic* child abuse: summary sent to Meg, invitation sent to mum to discuss and reconcile as family

✍️ Sadistic legal abuse as a response

2023-04-11: Meg wished me happy birthday and threatened legal action in the same message

- *"happy birthday"*, but, *"you and your psychologist are slandering Michael"*

2023-04-12: Daniel informed me of a legal threat sent to the clinic on my birthday regarding my messages to Meg and mum

- Daniel was unconcerned, pointed out the letter shows only concern for themselves and their reputations, zero concern for me or my welfare
 - *"unconvincing way to demonstrate no abuse occurred"*
- I noted it was never actually *"actionable"* given the text message was **edited to omit the invitation**
- Called Meg to try to understand *why*. **Meg answered the phone with the words "just like Jamie"**, refused to verify false beliefs, was comfortable intimidating and threatening others on the basis of those beliefs, and remained disturbingly calm
 - *Blocked forever*

2023-04-23: Laurien and I play our [first](#) game of chess

[How they plan to cover it up: lie](#)

2023-06-10: [Laurien contacts Dan](#), pretends I hardly talk to her and never about family, and asked why I was kicked out. This is what Dan said:

- "His most recent drug period (about a year ago) he went **wildly off the rails**"
 - [My colleagues describe that period differently](#)
- "Mum and dad **supported** him over the last 15 or so years"
 - Is this believable?
- "he became **really delusional** making up stories"
 - **Could not provide a single example**, this is claimed in the hope **you dismiss without verifying**
- "**hes put mum and dad through hell** (and me, and our aunties too)"
 - Wendy was put through hell, Dan just got called a *fuckwit*
- "now he is out on his own because they **cant take his shit anymore**"
 - **Inviting mum to talk to my psychologist** was the final straw?
- "**we have done everything we can to help him to no avail**"
 - Is there *any* evidence of them EVER HELPING at all?
- "**PLEASE dont repeat any of this to him**"
 - oh ok right, yeah

2023-06-11: The last time I send a [message](#) to dad's phone

2023-06-16: I give up on trying to reconcile with my family - message mum telling her that [I will wait until she is ready](#) - it's the last time I ever message her. I begin wondering *what is being covered up and why?*

2023-06-17: [Probate application filed for Wendy](#)

2023-09-02: Laurien visited for a week

Kirra November 2023 - May 2024

× Interesting theft

2023-11-16: [No longer homeless](#)

2023-11-17: After moving everything from the storage facility, I learned that "*my belongings*" do not include:

- **my dental X-rays** (*a picture's worth a thousand words*)
 - *interesting choice* to steal medical records?
- **6 or so hard drives** with sensitive work data, notably ID doc scans for ML training
 - *interesting choice* to steal PII?
 - later contacted former employer to work out whether this constitutes a **notifiable data breach**
- Later noticed **mum's will** is also missing

2024-01-12: Laurien visited for a week

2024-02-06: Laurien and I played our [526th](#) game of chess

2024-02-14: **Laurien and I started looking for Laura Steel**, concerned about what it was that dad was talking about

- **First asked Stephen Eardley** if he knew what happened to her after 2003, then searched social media and looked through old TSS newsletters

2024-02-17: Learned of [Marion Barter](#) from Bill Edgar's Facebook

- Noted that locations and approximate dates of **bank withdrawals** line up with where we lived and travelled, and that [Iluka](#) was a very small town in 1997

2024-02-19: Concerned that Laura Steel had *disappeared* like Marion Barter, rather than just assuming she *doesn't want to be found*

2024-02-20: Learned [Wendy's will](#) was updated less than **8 weeks before her death**

2024-02-21: Contacted **Missing Person Marion Barter** Facebook group for help, noting coincidences & similarities - **ignored**

2024-02-22: First of [several attempts](#) to get in touch with Queensland police regarding Wendy's case

[Inquest into the disappearance of Marion Barter concludes](#)

2024-02-29: NSW State Coroner declared Marion deceased and placed the date of her death at some time after October 15th 1997 - the cause, place, and manner of her death could not be determined

- The report makes little mention of TSS and none of dad, and term dates all but rule out a direct involvement in NSW in October
- Marion's mention of "*a betrayal*" at TSS - could this relate to a position at the school?

2024-03-01: I requested a copy of a [probate application](#) made by Laura Steel

2024-03-05: I discovered [Laura Steel's ABN](#) was cancelled (and had historical details suppressed) *the day after I called my parents for help* in 2012

- Began to see that her other movements *appear* to follow the same pattern: **is that what dad was talking about?**

2024-03-09: Attempted to explain my concerns to a friend - she remains dismissive, particularly about Marion, but still advises I go to the police

2024-03-11: I noticed that mum asked me lie to Robin to conceal her visit in August 2022

- Sent Robin a screenshot of mum's message, hoping she might consider that she has been lied to - **ignored**

2024-03-12~13: August 25th 2022 looks *even* more like an attempt on my life now, and explains behaviour since

- Made Crimestoppers reports stating my concern for Laura Steel (and her son)
 - At the time, I could only provide my phone messages as evidence to support this concern
 - At least one of these reports **also mentioned Wendy's name** - I'd hoped the investigation into her murder had already brought light to the issues with my family

2024-03-13: SDC Search & Copy Counter emailed me Laura Steel's probate documents

- After I saw the documents appeared legitimate, and that Laura Steel had family in 2018 and didn't appear isolated, my concern lessened but still remained
- I messaged a former coworker on LinkedIn: "*Hey JP. I heard you had a rough time last year. I think I am about to have a rough time also, and I could use your friendship*"

2024-03-14: Former coworker visits and I see if my concerns can be explained - he remains dismissive

2024-03-15: Laurien visited for a week, to help me make the police reports

- Someone set up a [Temu account using my email address](#)

2024-03-17: I reached out to Bill Edgar on Facebook, who confirmed that **dad knew Marion** - but remains sceptical

- Received and ignored a [suspicious Facebook friend request](#)

✓ Writing it all down

2024-03-18: I start writing this document

- **Based on this concern:**

If dad had something to do with Marion Barter, and/or

If August 25th 2022 *was* an attempt on my life, and

If Laura Steel has been repeatedly victimised into hiding

Laura Steel *may* be a witnesses to *something*, and

Laura Steel and other witnesses may be at risk

- **I documented:**

The events that suggest Laura Steel *may* have been repeatedly victimised into hiding

An *apparent* murder attempt planned *immediately* after Laura Steel's name came up

The patterns of behaviour spanning 25 years consistent with malignant narcissism

- joyful cruelty: sadism, remorseless abuse and exploitation, paranoia, Machiavellianism, controlling behaviour, lack of empathy, deceit and aggression

- **With the intended goal of:**

Ensuring police perform an *informed* welfare check on Laura Steel, and

If necessary, investigate further

2024-03-19: I received a phone call from QPS in which I was given Alana's email address to send any information I may have

- I mentioned the Crimestoppers reports from the previous week in the phone call
- I emailed my phone message export that evening, adding that I can provide context if needed

2024-03-28: I asked Bill Edgar for help with making these reports - **he ignores my messages from this point forward**

2024-03-30: Document complete, sent via email to **QPS**, starting with my concern for Laura Steel but primarily focus on Wendy and Jamie

- Mentioned the experience Wendy and I [both went through](#) with dad, and what that meant for Jamie
- Mentioned the failure to act when Wendy was at risk, comparing to the events of 2009
- I'm told that the **Crimestoppers reports were never received**, and advised to file another for other victims
- **Stated my concern that members of my family appear to be willing to murder to cover up something related to Laura Steel**

2024-03-31: Sent to Crimestoppers:

- Crimestoppers QLD regarding Laura Steel's safety - **ignored**
- Crimestoppers NSW regarding Marion Barter - **ignored**
